Service Requests

- On-site reminder of service needed – prevents last-minute requests
- Service requests include container's serial# and exact GPS
- Request sent in email/txt msg in real-time
- Screens customized to your needs, include comments, pictures, audio
- Optional Dumpster Rules QR code points to your website or Google
- The request form requires the name and phone# - prevents mis-use

Real examples of service requests

"Please switch asap, if possible Monday morning, place in same location"

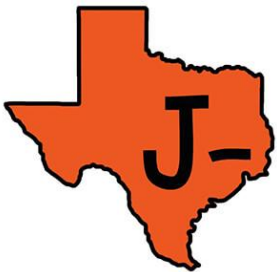

"Unit half full, other debris next to unit would fill it up"

"Put new dumpster at location of cones in front of space"

...if they support integration

Service Pricing

- 25c per asset per month (with $50/month minimum)
- $135 one-time setup
- Cost of the decals. Either AirVote uses their provider, or you can use your own – we will provide designs options at no additional cost.

Includes all features – service logs, service requests, tracking.

One-time integration development costs depend on the system and can be quoted separately if needed.
